

ELECTRICAL APPRECIATION TRAINING

FOR NON-ELECTRICAL ENGINEERS AND SAFETY OFFICERS

Powerpoint Engineering Ltd is the industry expert in providing Specialised Electrical Testing Products, Services & Training. We are the market leader in niche industries such as Electrical Safety Equipment, Energy Monitoring, Lockout/Tagout, Thermal Imagers & PAT Testing, having built up the necessary expertise, reputation and distribution agencies.

The aim of the course is to give an understanding of basic electrical theory and electrical safety awareness to non-electrical technical staff including Facility Managers, non-electrical Engineers, Maintenance Personnel and Safety Officers.

COURSE OVERVIEW:

Our Electrical Appreciation Training Course syllabus is comprehensive and includes the following topics:

- Basic Electrical Theory
- Electrical Measurements
- Electrical Safety
- Earthing
- Fuses / MCBS / RCDS
- Protection Devices
- Transformers and Electrical
- Distribution

ASSESSMENT & CERTIFICATION:

On passing a written examination you will be issued with an Electrical Appreciation Certificate.

We are accredited by NSAI to ISO Standard 9001:2015 and are a Registered Training Provider with Engineers Ireland.

LEARNING OBJECTIVE:

On completion of the course you will have a very good understanding of:

- Electrical Theory & General Principles
- Electrical Risks in the workplace
- Electrical Measurements & Testing
- Electrical Safety Precautions

COURSE DURATION:

We offer this training either on-line or on site at your premises.

For on-site training, the course fee per person is reflected based on the number of attendees with the maximum number permitted being 8 attendees.

COURSE FEE:

The cost of this course is very competitively priced at **€395 per person**.

WHO SHOULD ATTEND:

Any technical personnel with a non-electrical background who requires an understanding of basic electrical theory and electrical safety awareness in the workplace or for their clients.

TRAINER'S PROFILE:

Our trainer has over 15 years' experience in the electrical safety industry.

He is recognised as one of the experts in Ireland in electrical safety. His particular areas of expertise include:

- Substation Testing & Safety
- Power Quality and Energy Monitoring Surveys
- Design, Installation & Commissioning of Power Quality and Energy Metering Systems
- LV & MV power cable terminations
